Section 2: ChatGPT Prompts for Interview Preparation

Use these prompts inside ChatGPT (Free or Plus).

A. Generate Role-Specific Questions

“Generate 15 interview questions for a [Job Role] with focus on [Skills].”

Example:

“Generate 15 interview questions for a Marketing Analyst focusing on data interpretation and Excel skills.”

B. Generate Sample Answers (STAR Method)

“Give model answers to these interview questions using the STAR method.”

(STAR = Situation, Task, Action, Result)

C. Practice with Feedback

“I’ll type my answer. Please analyze it for tone, clarity, confidence, and structure.”

Then paste your response.

D. Improve Your Responses

“Rewrite this answer to sound more confident and concise.”

“Make this answer sound more professional and structured.”

E. Company Research Prompt

“Give me a summary of [Company Name]: key products, recent achievements, and competitors.”

Section 3: 5-Step AI-Powered Interview Strategy

Step 1: Identify Your Job Role

- Pick a real job post from LinkedIn/Naukri.

- Copy the **job description (JD)** → feed it into ChatGPT for customized questions.
-

Step 2: Practice Mock Interviews

- Use **Google Interview Warmup** or **Huru.ai**.
 - Record 3–5 mock sessions → note weak areas.
-

Step 3: Analyze Feedback

- Check voice, filler words, and confidence (Yoodli / Huru).
 - Log repeated mistakes.
-

Step 4: Refine with ChatGPT

- Paste your answer → ask ChatGPT to **improve it** for tone and clarity.
 - Practice refined answers again.
-

Step 5: Review & Repeat

- Simulate at least **3 complete mock interviews**.
- Review improvement areas after each session.

Consistency = confidence. 💪

Section 4: STAR Answer Template

Question: Tell me about a time when you solved a problem.

Step	Description	Your Example
Situation	What was happening?	
Task	What was your responsibility?	
Action	What steps did you take?	
Result	What was the outcome?	

👉 Use this template for behavioral or HR questions.
